## **A Guide to Scientific Paper Writing: Fundamentals of Research**

This publication is intended as an overview textbook guiding students through the basic curriculum of the scientific work theory. The publication is to be used mainly by students across study programmes to create a sufficient-quality final qualification thesis, but it is also applicable to a wide range of scientific works across various disciplines.

Keywords: bachelor's thesis, master's thesis, doctoral thesis, seminar work, research methods, research article, research, fundamentals.
